

TECHNICAL DATASHEET

RAXTAR Material Hoist

RAXTAR material hoists are developed in close cooperation with the largest Dutch general contractors in order to optimally reply to their demands. Based on its modular design, the award winning RAXTAR material hoists can easily be transformed into a full-fledged RAXTAR passenger and material hoist or a transport platform. Extremely robust, reliable, fail-safe, easy to install and low maintenance, RAXTAR material hoists are used for a wide range of disciplines.

Payload capacity	500 - 900 kg 1100 - 2000 lbs
Platform dimensions (L x W)	1,50 to 2,60 x 1,40 m 4' - 11" to 8' - 6" x 4' - 7"
Lifting speed	12 - 24 m/min 40 - 80 ft/min
Maximum lifting height	120 m 395'
Motor control	Direct - frequency controlled
Hoist controls	PLC, automatic landing
Programmable landings	Standard
Hoist calling system	Optional
User interface	Touch screen
Power supply	380V - 480V, 50 - 60Hz, 3 phase
Norms & regulations	EN 12158 - ANSI/ASSE A.10.5

Ground enclosure	Optional, stackable
Erection platform	Standard
Passenger & material hoist kit	Optional
Transport platform kit	Optional
Overload device	Optional
RX Control	Optional, remote management via internet
Blue tooth communication	Optional
Automatic lubrication	Optional
110V power on platform	Standard (handy tools)
